## TIME TO SERVICE YOU AIR CONDITIONER OR HEAT PUMP

### **NEW! Take advantage of our discount coupons**

Will your air conditioner be ready to keep your family cool and comfortable? Service Oil has a special offer to make sure it will operate efficiently and reliably throughout the summer.

**\* Schedule a pre-season air conditioner maintenance inspection before June 15, 2019 for only \$99.00 per unit. Inspection includes labor, up to two standard air filters, a visual inspection and testing of the drain line.**

Don't forget to follow these simple steps before starting your air conditioner for the first time in the spring.

- ✓ Clean or replace air filters.
- ✓ Remove any cover on the outside condensing unit and clean any debris from around the unit. Manufacturers recommend any plants or shrubbery be kept at least two feet away from the unit.
- ✓ Open all Supply registers in the house.
- ✓ If you have high/low register returns, close the bottom register and open the top register.

For further information call our service department today at (717) 564-1657.

\*Additional parts, labor and refrigerants are extra. Some restrictions may apply. Service Oil cannot be responsible for damage resulting from parts not visible upon inspection.
